Samples received without payment or prior credit arrangement will not be processed. Please contact the laboratory for pricing information.

Please make cheque payable to SGS Canada Inc, or contact the laboratory with credit card information.

SGS Canada Inc. is not licensed under the Ontario Clean Water Act to test water for human consumption.

Mineral Analysis: 500 ml required
 Microbiological Analysis: 200 ml required

The report for mineral analysis will state values and noteworthy critical or maximum concentrations.
 Microbiological analysis will be on a separate report.

Sample ID	Sample Description									

Please Note:
 Microbiological bottles cannot be used to submit a sample of water for mineral analysis unless they are rinsed thoroughly. The preservative present in the microbiological bottles will affect the accuracy of the water nutrient analysis.
Microbiological samples must be received before noon on Thursdays (samples will not be accepted on Fridays).
